Fair Districts = Fair Elections
fairdistrictsohio.org

We deserve fair districts and fair elections. Gerrymandering, the manipulation of political districts to unfairly influence elections, leaves Ohioans with uncompetitive congressional races. In 2016, every incumbent won – and by huge margins!

The word “gerrymandering” comes from a political cartoon from 1812. Gerrymander is a blending of two words. “Gerry” for Elbridge Gerry who approved the weird looking map and “mander” for salamander because the cartoonist thought the district looked like one.

Fair Districts = Fair Elections
